

SAME POOL · SAME SECOND

One swimmer is drowning right now.

Can you spot them in time? Your AI can.

Drowning is silent — 20 to 60 seconds, no splash, no scream. DrownShieldAI watches every swimmer at once and flags distress in seconds, straight to your lifeguard's watch.

**20–60s**

to slip under — silently, no splash

~11

people drown every day in the U.S.

#1

cause of death, U.S. kids ages 1–4

4,500+

U.S. drowning deaths every year

DETECT IN SECONDS

Real-time edge AI recognizes drowning behavior on-device.

ALERT INSTANTLY

Silent push to the lifeguard's smartwatch, tablet & deck.

PRIVATE BY DESIGN

All video processed on-site — no continuous cloud streaming.

Give every lifeguard an extra set of eyes.

Let's talk about a **pilot at your facility.**
